## INVESTOR CAPITAL STATEMENT: YEAR TO DATE

Kestrel Foundation · April 1, 2026 to September 30, 2026 · 6 valuation periods · **ACCOUNT FULLY REDEEMED**

|                 |                       |                            |
|-----------------|-----------------------|----------------------------|
| CLOSING CAPITAL | NET P&L, YEAR TO DATE | NET RETURN (TIME-WEIGHTED) |
| \$0.00          | \$35,602.10           | +1.08%                     |

## CAPITAL ACCOUNT, YEAR TO DATE

|                                                        |                 |
|--------------------------------------------------------|-----------------|
| Opening capital, April 1, 2026                         | \$0.00          |
| Capital contributed                                    | \$3,500,000.00  |
| Allocated P&L (after your share of the management fee) | \$44,502.64     |
| Incentive fee (20% over your own high-water mark)      | -\$8,900.54     |
| Capital withdrawn                                      | -\$3,535,602.10 |
| <b>Closing capital, September 30, 2026</b>             | <b>\$0.00</b>   |

This account opened during the period covered: your first subscription was admitted at the April 1, 2026 dealing date.

## PERIOD BY PERIOD

| PERIOD                                  | OPENING        | CONTRIBUTED           | P&L                | INCENTIVE FEE      | WITHDRAWN              | CLOSING        | RETURN        |
|-----------------------------------------|----------------|-----------------------|--------------------|--------------------|------------------------|----------------|---------------|
| April 2026<br>30 days to 2026-04-30     | \$0.00         | \$2,500,000.00        | \$4,303.68         | -\$860.74          | —                      | \$2,503,442.94 | +0.14%        |
| May 2026<br>31 days to 2026-05-31       | \$2,503,442.94 | —                     | \$2,710.76         | -\$542.15          | —                      | \$2,505,611.55 | +0.09%        |
| June 2026<br>30 days to 2026-06-30      | \$2,505,611.55 | \$1,000,000.00        | \$12,045.40        | -\$2,409.08        | —                      | \$3,515,247.87 | +0.27%        |
| July 2026<br>31 days to 2026-07-31      | \$3,515,247.87 | —                     | \$7,141.33         | -\$1,428.27        | —                      | \$3,520,960.93 | +0.16%        |
| August 2026<br>31 days to 2026-08-31    | \$3,520,960.93 | —                     | \$8,508.84         | -\$1,701.77        | —                      | \$3,527,768.00 | +0.19%        |
| September 2026<br>30 days to 2026-09-30 | \$3,527,768.00 | —                     | \$9,792.63         | -\$1,958.53        | -\$3,535,602.10        | \$0.00         | +0.22%        |
| <b>Year to date</b>                     | <b>\$0.00</b>  | <b>\$3,500,000.00</b> | <b>\$44,502.64</b> | <b>-\$8,900.54</b> | <b>-\$3,535,602.10</b> | <b>\$0.00</b>  | <b>+1.08%</b> |

The year-to-date return is the chain-linked product of each period's return on the capital you had invested for that period, net of all fees. Contributions are admitted at a period's open and withdrawals settle at its close, so neither the timing nor the size of a subscription distorts the figure.

## FEES BORNE, YEAR TO DATE

| FEE                     | BASIS                                                                                | AMOUNT             |
|-------------------------|--------------------------------------------------------------------------------------|--------------------|
| Management fee          | 2% per annum, accrued daily on capital, allocated to you pro-rata by opening capital | \$31,875.65        |
| Incentive fee           | 20% of gains above your own high-water mark, charged period by period                | \$8,900.54         |
| <b>Total fees borne</b> |                                                                                      | <b>\$40,776.19</b> |

The management fee is charged at fund level and is already deducted from the allocated P&L shown above; it is broken out here, not charged twice. Your share is the same pro-rata split used to allocate P&L.

## HIGH-WATER MARK

|                                              |                       |
|----------------------------------------------|-----------------------|
| High-water mark at April 1, 2026             | \$2,500,000.00        |
| <b>High-water mark at September 30, 2026</b> | <b>\$3,535,602.10</b> |

The hurdle is yours alone. It is carried across periods and across file sets, so a gain that only recovers an earlier loss is not charged a fee, and a subscription raises your mark by the amount added.

## WITHDRAWALS AND HOLDBACK

| VALUATION DATE      | TYPE            | WITHDRAWN             | CASH PAID             | HOLDBACK RETAINED   |
|---------------------|-----------------|-----------------------|-----------------------|---------------------|
| 2026-09-30          | Full redemption | \$3,535,602.10        | \$3,182,041.89        | \$353,560.21        |
| <b>Year to date</b> |                 | <b>\$3,535,602.10</b> | <b>\$3,182,041.89</b> | <b>\$353,560.21</b> |

\$353,560.21 is retained on the fund's books as a liability to you pending completion of the annual audit, and is released to you on sign-off. It is carved out of the fund's net assets and is not allocated to the remaining investors.

## BASIS OF PREPARATION

| FILE SET           | PERIODS COVERED          | VALUATION DATES | INPUT FILES |
|--------------------|--------------------------|-----------------|-------------|
| northfield         | 2026-04-01 to 2026-06-30 | 3               | 5           |
| northfield-q3-2026 | 2026-07-01 to 2026-09-30 | 3               | 5           |

Each file set is the fund's own delivery of a blotter, custodian statement, capital-activity notices and board-approved pricing file. The book, the capital accounts and every investor's high-water mark are carried across the seam between one delivery and the next; each set's NAV pack names its own files with their SHA-256 hashes.

### Engagement exceptions.

- northfield-q3-2026 carries a trade dated 2026-06-25, which falls in the period ended 2026-06-30. that period has already been valued and issued, so the row is NOT booked into this one; re-perform northfield with the audit command if the fund has restated it

Prepared by Attest as independent administrator to Northfield Digital Opportunities Fund LP. Marks are applied under the fund's board-approved marking policy; the administrator operates and applies that policy and does not originate underlying venue prices. Figures are unaudited and subject to the fund's annual audit. This statement is confidential and intended solely for the named recipient.
